Would you please  
file with the  
other  
Bracken stuff?  
Bracken  
Grant. Bob*

Dear Judy:

Enclosed are materials we received in response to our FOIA request on Michael Bracken's NIDA grant on ETS and pregnancy outcome. I have tried not to duplicate any records you already have.

Some records appear to be missing and there are a few other points on which we will need to follow up with NIH. Included in the materials we received are the following:

1. The Summary Statement prepared by NIH's Epidemiology and Disease Control Study Section. Deleted from this document are the reviewer's critiques and scores. Note that the grant application number changed from HD22901 to DA05484, indicating that originally funding was sought from the National Institute on Child Health and Human Development, not NIDA. We will probably request a document search under the original number. There may be nothing additional.

2. Certainly the most useful document produced is Bracken's response to the review committee's critique. It provides many additional details of the proposed research and includes information on Leaderer's contribution to the study.

3. The grant application and continuation grant applications are identical to those produced under the first FOIA request except that they include information on "pending" research support, which was deleted from the earlier production. I have copied only the cover pages and relevant pages.

4. Attachments to the grant applications. Here we are missing records. Appendix A is missing either part A-1 or A-2 (we can't tell which) and we need to confirm that there are no parts beyond A-7. Part B-2 of Appendix B is a cover sheet only. Missing
